

The Weekly Chronicle.

THE DALLES, - - - OREGON

LOCAL AND PERSONAL.

From the Daily Chronicle, Friday.

A. W. Branner of Nansene, is in the city.

Wool is arriving in the city at a lively rate.

C. S. Miller of Deschutes, was in town last night.

Mrs. H. Baxter of Kingsley is at the Umatilla house.

Those artistic barber poles of Fishers' came from Paris.

The retail price of strawberries has got down to 20 cents a box.

Remember the social tonight at the M. E. church, for the benefit of the Epworth League.

Mr. R. B. Wilson, general freight agent for the Northern Pacific railroad company is in the city.

A building for the use of Hose company No. 3 is now being constructed on the lot east of Moody's brick warehouse.

The boys of the Umatilla house dining room have organized an athletic club, and are developing considerable muscle.

Mr. Covington's rye crop this year, on the sand above this city, is up to the standard if we may judge from samples at hand.

Hon. H. H. Dufur and M. J. Anderson of Dufur, visited Kingsley last Tuesday night and organized a republican club with thirteen charter members.

Chief Jud S. Fisk, of The Dalles fire department, returned from a flying trip to the metropolis yesterday. He says the next biggest thing to the cruisers, in Portland, is the crowds who visit them.

The cool spell of weather that commenced yesterday and the muddy condition of the river have had a marked effect on the Salmon catch. Very few of the wheels caught anything last night.

Hon. C. W. Fulton, of Astoria, the most popular speaker in Oregon, will address the people at the Court house tomorrow evening on the issues of the day. Make a note of it; and try and be present.

No new cases of diphtheria are reported in the city. The 15-year-old daughter of Jack Elton is down with scarlet fever. Dr. Eshelman who has charge of the case, hopes it will not result seriously.

Unless the council takes action to prohibit the practice the youths of the city have of jumping on and off passing trains on Main street, some mother's son will be carried home a mangled corpse some of these days.

The contract has been let and the work commenced on a 25x64 feet frame building for a branch harness shop for Farley & Frank. The building is being erected on the lot immediately east of C. L. Richmond's livery stable.

Four, six, eight and ten-horse teams, stretching out half a mile long in The Dalles, laden with wool, etc., would be a bigger sight to the average Portlander today than the cruisers are to Dalles people visiting the consolidated city.

George Nolan of Dufur, returned last night from a trip to Astoria, Portland, Canby and Oregon city. At Astoria he attended the grand lodge of Odd Fellows, and at Portland he visited the government cruisers, which he describes as well worthy of a trip from The Dalles.

From the Buffalo Courier we learn that the Baptist chapel car "Evangel" was in Buffalo a few days ago on its way to Philadelphia. Rev. E. G. Wheeler who has charge of the car was on his way to the convention of the church in the Quaker city, to report on the work of the year.

Klamath Star: Oregon will feel pretty spiritless during the world's fair. All her sister states will be there, and all these sister states will shout, "How are you, Oregon!" to which Oregon will reply feebly, "I'm all moss dead, I thank you!" Thanks to our mossy legislature! Thanks to Veatch, whom the coffin-varnished old mummies are trying to boost into congress!

This morning, as Elisha Riggs was digging a trench for a sewer leading from the main sewer on Court street to Mrs. Krause's new building, corner of Court and Fifth, he unearthed a human skeleton at about 4 feet from the surface of the ground. Of the head only the base of the skull remained intact; so it is impossible, at least for a layman, to guess whether it was a man or a woman, or whether it belonged to an Indian or a white man. The skull was that of a full grown person and the body lay across the trench, the head lying towards the south.

The use of the storage battery for developing power is said to be gaining ground every day in Europe and the prospects are that we shall soon have our electricity in portable form. No mechanical impossibilities are said to be in the way of storing electricity for daily use, and the time may not be far distant when the electric delivery wagon will make daily calls at our houses with whatever cells may be needed to drive the sewing machine, churn the butter, rock the cradle, or furnish light or heat for the day.

A private letter from J. R. Rankin of Hood River informs the CHRONICLE that on last Wednesday there were shipped from Hood River station, at one time nearly \$800 worth of strawberries. It is expected this amount will be greatly exceeded in the near future. George T. Prather, democratic candidate for county assessor, estimates that for the next fifteen days, at least, Hood River will ship an average of 200 crates of strawberries a day. A crate contains 24 pounds and at an average of 16 cents a pound, which is about the average for the season, this would amount to \$768 a day. This may give a hint as to the importance of an industry only in its infancy in that country. In this connection it may be remarked that the Oregonist of last Sunday quoted Hood River strawberries at 50 cents a box while California berries were selling alongside of them for 15 cents. Hurrah for Hood River!

From the Daily Chronicle, Saturday.

The Oregon state grange resolved in favor of the free coinage of silver.

J. W. Moore, J. P. Moore and Polk Butler of Nansene, were in town last night.

The Oregon State grange has decided to hold its next annual meeting in the Dalles.

H. S. McDaniel, republican candidate for joint senator for Wasco and Sherman counties, was in the city last night.

Mr. and Mrs. William Holder were in the city last night on their way home from the meeting of the state grange.

Two drunken hobos occupied the city jail last night. They were this morning fined in the usual sum of \$5 and costs.

P. P. Underwood of Boyd, who was a delegate to the state grange meeting at Albany, arrived in the city today on his way home.

J. E. McCormick of Pleasant Ridge left at this office today a sample of fall rye, grown on his ranch, that measures seven feet.

W. D. Moody, who has been in the employ of Hon. Robert Mays, for three years past, leaves today with his family for Merced, California.

The national conventions are to be held in Minneapolis, Minn., and Chicago, Ills., June 7th, and 20th, respectively. Mr. Fulton is now on his way to Minneapolis.

If the people of this city want a celebration on the 4th it is high time something were done. Will somebody call a citizens' meeting? Gentlemen get a move on yourselves.

Mayor Mays came in from his Antelope ranch yesterday. He says he never saw crops look so promising, as they do all over the country between the Deschutes hill and the Dalles.

Governor Penney is reported to have said that Korke, of the people's party, will be elected to congress instead of Hermann or Veatch. The wish seems to be the father of the thought.

The annual tournament of the Sportsmen's association of the Northwest will be held in Seattle, June 16th, 17th and 18th. A rate of one and one-fifth fare for the round trip has been secured over the Northern Pacific and a large attendance is expected.

George Washington Childs, the well-known editor of the Philadelphia Public Ledger, arrived in Portland yesterday morning. At 6:30 last evening Mr. Childs was tendered a cordial reception at Hibernia hall by the printers and newspaper men of Portland.

President Harrison gives his support to the national Columbian public school celebration, which plans to give the public school the leadership in all the local celebrations of the 400th anniversary of the discovery of America on October 12. He urges its value as an object lesson to the rising generation.

Williamsburg county, South Carolina, was visited by a series of terrific tornadoes on the 26th and 27th, accompanied by heavy rain and hail. Houses were unroofed and blown down, trees uprooted and crops of all kinds almost totally destroyed. Hail drifts were three feet deep in fence corners. A number of persons were injured.

Brother Shutt of the Moro Observer will soon sever his connection with that paper and remove to Antelope to manage a new paper soon to be started at that place. It is understood the new paper is intended to advocate another division of the county. Poor Wasco! She will soon be in the same fix the man's dog was after his tail was cut off behind the ears!

The Portland Dispatch objects to the present silver policy which enables the government to buy 70 cents worth of silver, coin it into a silver dollar worth 100 cents and pocket the 30 cents. The Dispatch would prefer that the silver miners and speculators should pocket the 30 cents. Of course the Dispatch is opposed to class legislation.

L. P. Dorais has a kick against the board of school examiners and against the manner in which examinations are made. Mr. Dorais writes a fine Italian hand, so as to speak, as it were. In fact, Mr. Dorais uses italics so numerous that his whole article is emphatic. Several years' experience in the newspaper business has taught us that Mr. Dorais has mistaken his remedy. What he should have used was the powerful and the sarcastic? "That's what knocks!"

Owing to the heavy importation of silver from Spain, over \$10,000,000 having been received since the commencement of the year, another monetary conflict has arisen in Havana. The majority of the retail tradesmen accept the dollar only for ninety-five cents because of the discount on silver as against gold. In some parts of the interior Mexican silver is only accepted at seventy cents on the dollar.

Uncle Jammy Benson said to a CHRONICLE representative to-day, "I saw an article in THE CHRONICLE a short time ago that said fruit would be short on Five-mile this year. Now I want you to come out to the creek some of these days and if we don't show you more fruit than you ever saw in your life I'll treat. Why I have been living on the creek for 20 years and I never saw fruit trees of every kind loaded down with fruit as they are this year." Said Joel W. Koontz, republican candidate for county assessor, who overheard Mr. Benson's remarks, "If you come out to my place in a week I'll fill you up with strawberries to the throat, or picket you on a two foot and a half rope, and you'll be able to reach at more than you can possibly eat. All kinds of crops on Five-mile never looked as good as they do this year."

The Washington special correspondent of the Oregonian, under date of May 27th says: "The Blaine boom is sagging in the middle and bagging at the knees. The group of politicians who are determined to defeat President Harrison at any cost, seemed to have failed in their mission. The Blaine boomers have not at any time had any assurances that the secretary would accept the nomination. Their sole idea in bringing forward Blaine was to defeat the president, and then if possible land the nomination on someone else. This effort has failed, and the president appears more popular than ever. The schemers have not given up the attempt to bring about the president's defeat, but the opinion of the best republicans is that the nomination of Blaine, if he would accept, would be full of peril, while that of President Harrison would be safe and a practical assurance of victory."

About a dozen Chinamen have been engaged for some time in working the old placer fields on the Columbia above Umatilla. They evidently have quite a snap, and are very suspicious of white people, refusing to talk or to show the amount of gold taken out to parties who visit their camp. They are believed to have secured considerable fine gold. High water permits active operations just now, and the miners are busy, working near the edge of the river. They use quite an elaborate and ingenious cradle process, and seems to have a dry process, also, of a curious nature. The placers where the Chinese are mining were abandoned by white miners about twenty years ago. They are some two miles above Umatilla. In 1862 this mine was "worked out" by Col. D. S. Dow, and associates, but the deposits from up the Columbia since then have again made it good diggings.

A Pointer.

"I am very much pleased with Chamberlain's Cough Remedy," says H. M. Bangs, the druggist at Chatsworth, Ill. "During the epidemic of influenza here it took the lead and was very much better liked than other cough medicines." The grip requires precisely the same treatment as a very severe cold, for which this remedy is so efficient. It will promptly loosen a cold and relieve the lungs, soon effecting a permanent cure, while most other medicines in common use for colds only give temporary relief. 50 cent bottles for sale by Blakeley & Houghton, druggists. d&w
